

A modern dining table and bench set on a patio. The table is made of light-colored wood with a black metal frame. The bench is also made of light-colored wood. Two orange thermal mugs with black lids are on the table. The patio is paved with light-colored tiles. In the background, there is a large glass wall that reflects the surrounding greenery and sky. The text "BEEM" is overlaid on the image in a white, sans-serif font.

BEEM

UNIQUE OUTDOOR LIGHTING & HEATING

BEEM by HEATSAIL

*BEEM® is a timeless heating & lighting product
that turns your terrace into a place you don't want
to leave during cool cosy evenings.*

*Give your terrace that little added extra. Turn it
into a delightful jewel with BEEM®.*

BEEM® TIMELESS PENDANT LIGHTING AND HEATING FOR YOUR TERRACE

HEATSAIL PRODUCTS ARE DESIGNED AND MADE IN BELGIUM

BEEM by HEATSAIL

HEATSAIL

Heatsail is a Belgian design company established in 2012 that has redefined the luxury lighting, heating and cooling space. We develop unique technical outdoor products to create lasting experiences by extending the finest moments of a beautiful day.

LIGHT

When it gets darker you turn on the light. 6 or 8 lightpoints distributed over the length of the BEEM give you plenty of light.

BEEM by HEATSAIL

HEAT

When it gets chilly just turn on the integrated heating. Discrete far-infrared heating elements give you the most pleasant warmth. They are evenly distributed over the length of the BEEM, creating equal warmth for everyone. There are two heat levels to support your needs.

BEEM by HEATSAIL

COOL

When it gets really too hot, switch on the optional misting. Integrated channels on both sides of the BEEM create a fine mist. A combination of very small orifices and high pressure lets water evaporate in the air before it makes your hair frizz. It cools the surrounding air up to 15°C. Do you want to have control on how and when? Use the smartphone app and you are the cooling master.

Technical information

Rust-free weatherproof

The BEEM is made of high quality aluminium, making it suitable for outdoor use.

Low energy usage, zero CO2 emission

The BEEM uses less energy than traditional gas heaters and generates up to 25% more heat with a lower energy consumption, only 3,24 kWh (B230 & B290) and 4,32 kWh (B390 & B520).

Low maintenance

By using highly efficient and durable ceramic heating elements and the best materials, the BEEM is virtually maintenance free.

Reach & glow

The reach depends on your model, providing a comfortable warmth without red glow.

Colours

Standard in Midnight black. Optional in Snow.

Midnight

Snow

B230

Infra-red heat	3000 Watt
Lighting	6 x 40 Watt
Reach	5,75m ²
Electrical requirements	
Fuse	16 amp
Wiring	3 x 2,5 mm ²

B290

Infra-red heat	3000 Watt
Lighting	6 x 40 Watt
Reach	7,25m ²
Electrical requirements	
Fuse	16 amp
Wiring	3 x 2,5 mm ²

B390

Infra-red heat	4000 Watt
Lighting	8 x 40 Watt
Reach	9,75m ²
Electrical requirements	
Fuse	20 amp
Wiring	5 x 2.5 mm ² or (2x) 3 x 2.5 mm ²

B520

Infra-red heat	4000 Watt
Lighting	8 x 40 Watt
Reach	13m ²
Electrical requirements	
Fuse	20 amp
Wiring	5 x 2.5 mm ² or (2x) 3 x 2.5 mm ²
